2014 — 2017: **Fullstack web developer** at WhiteByte (web design agency)

Web development for company clients

## Architecture & Design Expertise

- Microservices architecture, distributed systems design
- High-load system optimization and scaling strategies
- API design and integration patterns
- Database architecture and performance optimization
- Performance monitoring and observability
- Cloud architecture (Azure, GCP, AWS)
- Security architecture for financial systems

## Hands-on skills summary

- C#, .NET, TypeScript, JavaScript
- Node.js, React, Angular
- Redis, MSSQL, MySQL, MariaDB, MongoDB

- RabbitMQ, Kafka, message queries
- FIX protocol
- Agile development, Scrum, Kanban

- Docker, Kubernetes, Ansible
- Microsoft Azure, GCP, AWS
- REST API design, automated testing

## Education

2002 - 2007

B.SC, Altai State Technical University, Russia

## Languages

English (fluent), Hebrew (fluent), Russian (native),  
German (basic)
